4-H Cloverbuds explore art, plants and animals, science, and the environment. The children engage in group activities that promote personal development, healthy lifestyles, and good citizenship.

4-H Cloverbud groups can be started in lots of different ways. To start a new Cloverbud group in your community, please contact the Extension office.

4-H opportunities are available for all youth ages 5-18. For more information about 4-H in Bureau County, or if you need a reasonable accommodation to participate, please contact:

4-H Cloverbuds

Hands-On Fun for Kids Ages 5-7

<http://web.extension.uiuc.edu/bureau>

what is Cloverbuds?

Cloverbuds learn through fun, hands-on activities.

Cloverbuds is a special 4-H program for youth ages 5-7 and not yet in third grade. A major goal is to help kids get excited about learning and have success in their efforts.

Cloverbuds is . . .

- Active, hands-on learning experiences
- An informal educational program
- Opportunities for kids to learn about topics that interest them
- A place for kids to practice social skills and learn cooperatively
- A place to make new friends
- A lot of fun!

For All Youth Ages 5-7

The 4-H Cloverbud program is open to all youth ages 5-7 and not yet in third grade as of September 1. Families are welcome at all 4-H Cloverbud events. Cloverbuds have their own projects and activities that are research-based and appropriate for their age level. In Bureau County, many 4-H Community Clubs have Cloverbud activities; a county-wide Cloverbud group is also available.

Many 4-H programs are led by dedicated adult volunteers. If you are interested in volunteering, contact your local Extension office!

Building Confident Kids

In the 4-H Cloverbud program, kids learn about themselves, make friends, make decisions, learn from others and develop physical coordination through fun small group activities.

The county-wide Cloverbud program chooses a different project theme for each monthly meeting. Youth might play games, make crafts, read stories, or do other hands-on activities to learn about the theme.

Cloverbuds may also participate in the Bureau County 4-H Fair through a non-competitive display of their work. Cloverbuds

Cloverbuds enjoy learning to work together in small groups.

do not exhibit live animals and are

not eligible to receive premiums. Cloverbuds do enjoy watching the older members exhibit, and receiving positive comments on their project displays.

Cloverbuds explore many project areas, including environmental science.

Join Cloverbuds Today!

A county-wide Cloverbud meeting schedule is located on the back of this flap. You can enroll in the program at the first meeting you attend. New members are welcome at any time during the year. You may want to call the Extension office first to confirm the date, time, and location of the meeting. Please note, a parent/guardian or older friend (ages 16+) is required to attend the meetings with the child. Families are welcome.

There is a fee to participate in the 4-H program. No youth are turned away due to an inability to pay. For more information, please contact the Extension office.
