Original Owners and/or Builders: Unknown

Age of Barn: Part of barn was built in 1880's. Between 1912 – 1915, more was added to the barn; garage and carriage house was built.

Original Use or Purpose of Structure: Dairy barn, cattle and horses

History of Barn and/or Farm: Reported to be the first electrified farmstead in Kankakee County – powered by a 32 volt CD Delco Generating Unit. Very unique architecture between barn, house, garage and carriage house. It has been reported that the design was created by the University of Illinois Architectural Department.
