

The first group of ten designs for the Barn Quilts of Kankakee County Tour has been installed on a variety of vintage farmstead buildings throughout the county, beginning with the Vernon Meyer farm along County Line Road, west of Chebanse. Over a period of months, the eight foot by eight foot plywood panels were constructed, painted and hung for the self-guided tour. The quilt blocks used traditional designs, as well as, those from family heirlooms. Ten Kankakee County barns or cribs are now adorned with quilt blocks.
