*Fish Block* 9

**Age of Barn:** Built in 1919

**History of Barn and/or Farm:** The purchase agreement is actually painted inside the old barn. The quilt pattern came from a book at the Momence Public Library. During the 1800's, many fur trappers traveled on the river and camped in the area before continuing on to Chicago. The fish are representative of the Kankakee River (which runs behind the barn) and the fur trappers. The bright yellow fish design was inspired by a pattern on Mrs. Doud's father's necktie.
