Program Description:

The embryology program training topics include: Chickens and eggs in the economy; What is a chicken – the origin and development of present day domestic chickens; What is an egg; The principals of incubation; The classroom incubator; Incubation procedures and techniques; The stages of embryonic development; Preservation of embryos and Disposing of the chicks. Most important, the University of Illinois Extension Incubation and Embryonic Development Project covers Illinois State Learning Standards in multiple disciplines including biological and physical sciences, fine arts, physical development and health, language arts, mathematics, and social sciences. The lesson plans are available online and materials in the training provide teachers with resources for a very comprehensive interdisciplinary unit. Please visit our website at www.urbanext.uiuc.edu/eggs for additional information. 2 CPDU’s are available.

Staff Contact: Donna Nuger

No Refunds unless program is cancelled by the Extension Office. No Walk-ins will be accepted.

University of Illinois Extension offers practical, research-based programs that help people improve their lives and address critical community issues involving youth, families, economics, health and natural resources. University of Illinois Extension provides equal opportunities in programs and employment. If you need a reasonable accommodation to participate in this program, please contact the Unit Office at least two weeks prior to the event.
