### **Getting Stains Out of Clothing**

Halloween, football games, fall festivals . . . the season is full of fun activities and plenty of great things to eat and drink. And with the season, comes the chance of stains ruining some of your favorite clothes.

The key to effective stain removal is taking quick action. Stains are much easier to remove within the first 24 hours. You also want to avoid rubbing the stained area with a linty terry towel or a dark-colored cloth because that just complicates the problem.

You can be ready for those stubborn stains by downloading our [Quick 'n Easy Stain Removal Guide](#).

This 8-page publication explains how to use common laundry products to remove many stains from washable fabrics. The guide is a handy resource to keep with your laundry supplies.
